Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenue at the least cost; serve the public by continually improving the

quality of our products and services; and perform in a manner warranting the highest degree of public confidence in our integrity, efficiency and fairness.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semi-annually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations,

court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1986 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1986.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous. To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts. Also included in this part are Bank Secrecy Act Administrative Rulings. Bank Secrecy Act Administrative Rulings are issued by the Department of the Treasury's Office of the Assistant Secretary (Enforcement).

Part IV.—Items of General Interest.

With the exception of the Notice of Proposed Rulemaking and the disbarment and suspension list included in this part, none of these announcements are consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate

Part I. Rulings and Decisions Under the Internal Revenue Code of 1986

Section 355.—Distribution of Stock and Securities of a Controlled Corporation

26 CFR 1.355-3: Active conduct of a trade or business.

The revenue procedure amplifies the "No Rule" revenue procedure, Rev. Proc. 96–3, 1996–1 I.R.B. 82, to include certain transactions under § 355 of the Code. See Rev. Proc. 96–43, page 6.

Section 809.—Reduction in Certain Deductions of Mutual Life Insurance Companies

26 CFR 1.809–9: Computation of the differential earnings rate and the recomputed differential earnings rate.

Mutual life insurance companies; differential earnings rate. The differential earnings rate for 1995 and the recomputed differential earnings rate for 1994 are set forth for use by mutual life insurance companies to compute their income tax liabilities for 1995.

Rev. Rul. 96-42

This revenue ruling contains the differential earnings rate for 1995 and the recomputed differential earnings rate for 1994. Under § 809 of the Internal Revenue Code, mutual life insurance companies use these rates in computing their Federal income tax liability for taxable years beginning in 1995. This revenue ruling also contains the figures on which the determinations of these rates are based. Notice 96–15, 1996–13 I.R.B. 19, contained tentative determinations of these rates.

Section 809(a) provides that, in the case of any mutual life insurance company, the amount of the deduction allowable under § 808 for policyholder dividends is reduced (but not below zero) by the "differential earnings amount." Any excess of the differential earnings amount over the amount of the deduction allowable under § 808 is taken into account as a reduction in the closing balance of reserves under subsections (a) and (b) of § 807. The "differential earnings amount" for any taxable year is the amount equal to the product of (a) the life insurance company's average equity base for the taxable year multiplied by (b) the "differential earnings rate" for that taxable year. The "differential earnings rate" for the taxable year is the excess of (a) the "imputed earnings rate" for the taxable year over (b) the "average mutual earnings rate" for the second calendar year preceding the calendar year in which the taxable year begins. The "imputed earnings rate" for any taxable year is the amount that bears the same ratio to 16.5 percent as the "current stock earnings rate" for the taxable year bears to the "base period stock earnings rate."

Section 809(f) provides that, in the case of any mutual life insurance company, if the "recomputed differential earnings amount" for any taxable year exceeds the differential earnings amount for that taxable year, the excess is included in life insurance gross income for the succeeding taxable year. If the differential earnings amount for any taxable year exceeds the recomputed differential earnings amount for that taxable year, the excess is allowed as a life insurance deduction for the succeeding taxable year. The "recomputed differential earnings amount" for any taxable vear is an amount calculated in the same manner as the differential earnings amount for that taxable year, except that the average mutual earnings rate for the calendar year in which the taxable year begins is substituted for the average mutual earnings rate for the second calendar year preceding the calendar year in which the taxable year begins.

The stock earnings rates and mutual earnings rates taken into account under § 809 generally are determined by dividing statement gain from operations by the average equity base. For this purpose, the term "statement gain from operations" means "the net gain or loss from operations required to be set forth in the annual statement, determined without regard to Federal income taxes, and ... properly adjusted for realized capital gains and losses...." See \S 809(g)(1). The term "equity base" is defined as an amount determined in the manner prescribed by regulations equal to surplus and capital increased by the amount of nonadmitted financial assets, the excess of statutory reserves over the amount of tax reserves, the sum of certain other reserves, and 50 percent of any policyholder dividends (or other similar liability) payable in the following taxable year. See § 809(b)(2), (3), (4), (5) and (6). Section 1.809–10 of the Income Tax Regulations provides that the equity base includes both the asset valuation reserve and the interest maintenance reserve for taxable years ending after December 31, 1991.

Section 1.809–9(a) of the regulations provides that neither the differential earnings rate under § 809(c) nor the recomputed differential earnings rate that is used in computing the recomputed differential earnings amount under § 809(f)(3) may be less than zero.

For purposes of § 809, the differential earnings rate for 1995 and the rate used to calculate the recomputed differential earnings amount for 1994 (the recomputed differential earnings rate for 1994), and the figures on which these two rates are based are set forth in Table 1.

Part III. Administrative, Procedural, and Miscellaneous

1996 Section 43 Inflation Adjustment

Notice 96-41

Section 43(b)(3)(B) of the Internal Revenue Code requires the Secretary to publish an inflation adjustment factor. The enhanced oil recovery credit under § 43 for any taxable year is reduced if the "reference price," determined under § 29(d)(2)(C), for the calendar year preceding the calendar year in which the taxable year begins is greater than \$28 multiplied by the inflation adjustment factor for that year.

The term "inflation adjustment factor" means, with respect to any calendar year, a fraction the numerator of which is the GNP implicit price deflator for the preceding calendar year and the denominator of which is the GNP implicit price deflator for 1990.

Because the reference price for the 1995 calendar year (\$14.26) does not exceed \$28 multiplied by the inflation adjustment factor for the 1996 calendar year, the enhanced oil recovery credit for qualified costs paid or incurred in 1996 is determined without regard to the phase-out for crude oil price increases.

Table 1 contains the GNP implicit price deflator used for the 1996 calendar year, as well the previously published GNP implicit price deflators used for the 1991 through 1995 calendar years.

Notice 96–41 TABLE 1 GNP IMPLICIT PRICE DEFLATORS

Calendar Year	GNP Implicit Price Deflator
1990	112.9 (used for 1991)
1991	117.0 (used for 1992)
1992	120.9 (used for 1993)
1993	124.1 (used for 1994)
1994	126.0 (used for 1995)
1995	107.5 (used for 1996)*

*Beginning in 1995, the GNP implict price deflator was rebased relative to 1992. The 1990 GNP implicit price deflator used to compute the 1996 § 43 inflation adjustment factor is 93.6

Table 2 contains the inflation adjustment factor and the phase-out amount for taxable years beginning in the 1996 calendar year as well as the previously published inflation adjustment factors and phase-out amounts for the 1991 through 1995 calendar years.

1996 Marginal Production Rates

Notice 96-42

Section 613A(c)(6)(C) of the Internal Revenue Code defines the term "applicable percentage" for purposes of determining percentage depletion for oil and gas produced from marginal properties. The applicable percentage is the percentage (not greater than 25 percent) equal to the sum of 15 percent, plus one percentage point for each whole dollar by which \$20 exceeds the reference price (determined under § 29(d)(2)(C)) for crude oil for the calendar year preceding the calendar year in which the taxable year begins. The reference price determined under § 29(d)(2)(C) for the 1995 calendar year is \$14.26.

Table 1 contains the applicable percentages for marginal production for taxable years beginning in calendar years 1991 through 1996.

26 CFR 601.201: Rulings and determination letters.

(Also §§ 355; 1.355–3.)

Rev. Proc. 96-43

SECTION 1. PURPOSE

This revenue procedure amplifies Rev. Proc. 96–3, 1996–1 I.R.B. 82, which sets forth the areas of the Internal Revenue Code under the jurisdiction of the Associate Chief Counsel (Domestic) and the Associate Chief Counsel (Employee Benefits and Exempt Organizations) relating to issues on which the Internal Revenue Service will not issue advance rulings or determination letters.

SECTION 2. BACKGROUND

Section 4 of Rev. Proc. 96-3 sets forth those areas in which rulings or determination letters will not ordinarily be issued. Section 355(a) of the Internal Revenue Code applies to distributions of stock or securities of a corporation controlled by the distributing corporation if each of the corporations is engaged in the active conduct of a trade or business. Section 355(b) provides that a corporation is engaged in such conduct if, among other things, it is directly engaged in the active conduct of a trade or business, or substantially all of its assets consist of stock and securities of a corporation controlled by it (immediately after the transaction) which is so engaged.

SECTION 3. PROCEDURE

Rev. Proc. 96–3 is amplified by adding to section 4 the following:

Section 355.—Distribution of Stock and Securities of a Controlled Corporation.—Whether a distribution of stock or securities is described in § 355(a)(1) when the gross assets of the trades or businesses relied on to satisfy the active trade or business requirement of § 355(b) will have a fair market value that is less than 5 percent of the total fair market value of the gross assets of the corporation directly conducting the

trades or businesses. The Service may rule that the trades or businesses satisfy the active trade or business requirement of § 355(b) if it can be established that, based upon all relevant facts and circumstances, the trades or businesses are not de minimis compared with the other assets or activities of the corporation and its subsidiaries.

SECTION 4. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests postmarked or, if not mailed, received on or after August 8, 1996.

FURTHER INFORMATION

For further information regarding this revenue procedure contact Robert Hawkes of the Office of Assistant Chief Counsel (Corporate) at (202) 622–7530 (not a toll-free call).

SECTION 1. PURPOSE

This revenue procedure prescribes the loss payment patterns and discount factors for the 1996 accident year. These factors will be used for computing discounted unpaid losses under § 846 of the Internal Revenue Code. See Rev. Proc. 92–47, 1992–1 C.B. 980, for background concerning the loss payment patterns and application of the discount factors.

SEC. 2. SCOPE

This revenue procedure applies to any taxpayer that is required to discount its unpaid losses under § 846 for a line of business using discount factors published by the Secretary.

SEC. 3. TABLES OF DISCOUNT FACTORS

.01 The following tables present separately for each line of business the discount factors under § 846 for accident year 1996. All the discount factors presented in this section were determined using the applicable interest rate under § 846(c) for 1996, which is 6.63 percent, and by assuming all loss payments occur in the middle of the calendar year.

.02 If the groupings of individual lines of business on the annual statement changes, taxpayers must discount the unpaid losses on the resulting lines of business in accordance with the discounting patterns that would have applied to those unpaid losses based on their classification on the 1990 annual statement.

Rev. Proc. 96-45

SECTION 1. PURPOSE

This revenue procedure prescribes the salvage discount factors for the 1996 accident year. These factors will be used

for computing discounted estimated salvage recoverable under § 832 of the Internal Revenue Code.

Section 832(b)(5)(A) requires that all estimated salvage recoverable (including that which cannot be treated as an asset for state accounting purposes) be taken into account in computing the deduction for losses incurred. Under § 832(b)-(5)(A), paid losses are to be reduced by salvage and reinsurance recovered during the taxable year. This amount is adjusted to reflect changes in discounted unpaid losses on nonlife insurance contracts and in unpaid losses on life insurance contracts. An adjustment is then made to reflect any changes in discounted estimated salvage recoverable and in reinsurance recoverable.

Pursuant to § 832(b), the amount of estimated salvage is determined on a discounted basis in accordance with procedures established by the Secretary.

This revenue procedure applies to any taxpayer that is required to discount estimated salvage recoverable under § 832.

SEC. 4. APPLICATION

.01 The following tables present separately for each line of business the discount factors under § 832 for the 1995 accident year. All the discount factors presented in this section were determined using the applicable interest rate under § 846(c) for 1996, which is 6.63 percent, and by assuming all estimated salvage is recovered in the

	endar year. See Rev.		Discount		Discount

Part IV. Items of General Interest

Effective Date Extension for Certain Payors Revising Their Substitute Forms W-9

Announcement 96-77

This announcement extends the January 1, 1997, effective date of certain provisions of Rev. Proc. 96–26, 1996–8 I.R.B. 22, for certain payors. That revenue procedure provides requirements for payors of interest, dividends, and patronage dividends, and brokers that want to design and provide their own substitute Form W–9, Request for Taxpayer Identification Number and Certification, to obtain the required taxpayer identification number and "no backup withholding" certifications from their payees.

The effective date of Rev. Proc. 96–26 (other than for section 5 relating to certain impermissible uses of the required certifications) is extended to July 1, 1997, if a payor (1) is required to obtain the approval of a governmental authority for changes to the format of its substitute Form W–9 required by Rev. Proc. 96–26, (2) applies, on or before September 30, 1996, for that approval, and (3) thereafter actively pursues that approval.

The principal author of this announcement is John Coulter of the Office of Assistant Chief Counsel (Income Tax and Accounting). For further information regarding this announcement contact Mr. Coulter at (202) 622–4910 (not a toll-free call).
